                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                g
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              RESULT 168
US-09-829-855-179/c
Sequence 179, Application US/09829855
Patent No. 6613520
GENERAL INFORMATION:
APPLICAT: Matthew, Ashby N.
TILE OF INVENTION: Methods for the Survey and Genetic Analysis of Populations;
TILE OF INVENTION: Mothods for 108/09/829, 855
CURRENT APPLICATION NUMBER: US/09/829, 855
CURRENT PILING DATE: 2001-04-10
PRIOR FILING DATE: 2000-04-10
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                ö
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              ö

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                RESULT 190

US-07-785-565A-5/c

Sequence 5, Application US/07785565A

Sequence 5, Application US/07785565A

Patent No. 5866129

GENERAL INFORMATION:

APPLICANT: Chang, Tse Wen; Chang, Nancy T.

TITLE OF INVENTION: Treating Disease with a Peptide Corresponding to Membrane-Boun NUMBER OF SEQUENCES: 19

CORRESPONDENCE ADDRESS:
Sequence 5, Application of Sequence 5, Application of Sequence 5, Application of Sequence 5, Application of Sequence 5, Applicant; Chang, Tse Wen; Chang, Nancy T. Sequence 82, Application US/09207388

Patent No. 6497880

GENERAL INFORMATION:

TITLE OF INVENTION: HEAT SHOCK GENES AND PROTEINS FROM

TITLE OF INVENTION: PUMICATUS

TITLE OF INVENTION
GENERAL INFORMATION:
APPLICANT: Althaus, Harald
APPLICANT: Hauser, Hans-Peter
TITLE OF INVENTION: Human Procalcitonin and the Preparation and Use Thereof
FILE REFERENCE: 05552.1445-00
CURRENT APPLICATION NUMBER: 105/09/742,373
CURRENT FILING DATE: 2000-12-22
PRIOR APPLICATION NUMBER: 19962434.8
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               ö
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         ö
